Glorifying GOD by Helping Starving Children!

We Give Thanks for Our Volunteers!

Risen Savior Missions has a total of 59 different feeding locations in the areas of Davao City and Mati City on the island of Mindanao in the Philippines. During the last two years, thousands of children on this island have recovered from malnourishment and starvation and are well enough to go back to school again. RSM is very fortunate to have so many dedicated Philippine men and women volunteering on an ongoing basis to prepare and cook the donated Feed My Starving Children food and weigh the children once a month and check on their general well being. This success is all possible under the loving guidance and

holistic management of the Kiwanis Clubs of the Southeast Region of the Philippines, and we are extremely grateful for the leadership of Allen in the Davao area and Jeff in the Mati area.

On several other islands like this one, we have other great Kiwanis volunteers helping RSM develop holistic feeding sites, like Boy, Virgie, and Ike on the island of Panay and Nena from the Luzon/Manila area. Between them all, they feed another 10,000 to 15,000 children at hundreds of different feeding sites.

They are always helping us find many ways to save the lives of poor orphans, pregnant mothers and impoverished families. Just outside of Davao City extremely poor children struggle to survive, living on a huge garbage dump. These kids work so hard to carry tainted water up from a nearby polluted stream in a valley below to their shanty homes. When they finish that task, they spend long hours helping their parents sift through filthy, rotting garbage for something to eat or something of value to sell for food such as empty plastic bottles.

This young woman has gathered a little bit of firewood to use hopefully for cooking and collected a big dirty sack filled with plastic bottles, which she will sell for 11 cents. She will get only 11 cents for her day's work of wading through garbage and biting insects. How can any family survive there on such miniscule earnings?

By the grace of God and your prayers and donations, we went there to establish a feeding site. I helped serve some of the FMSC food.

We Give Thanks (continued)

One boy devoured the plate of food so fast, I don't think he took time to breathe until his plate was empty. Another little boy was enjoying the food, too, but he ate more slowly, trying to figure out how he could take some of this food home for his starving siblings, parents, and grandparents. A little child should not have to worry about whether there is going to be enough food for tomorrow. That is just so terribly wrong!

Today, so many children there are smiling and playing again because of the nutritious FMSC food from RSM. They have regained most of their health and are getting back to their normal growth pattern once again.

Now we are taking these successful holistic techniques to the island of Marinduque. We have a food/medical mission trip coming up in February, 2013. We hope to see and treat hundreds of patients, conduct free surgeries, and fit people with free eyeglasses. We will also be visiting the newly added feeding sites that serve thousands of starving children, senior citizens and their families.

from America to a malnourished child in the Philippines is only two cents. Imagine how many children your donation could save! Please help us feed these starving children in the Philippines with a special gift. We give thanks for your prayers and contributions. Working together with our Lord, the lives of these dear children can be changed forever!
